Dear Dr Bondarenko,

I am writing as General Chair of the International Symposium on Symbolic and Algebraic computing (Issac 94), to be held in Oxford on 19-22nd July, 1994, to invite you to take part in the meeting. I understand you have sufficient funds for your support during the meeting, so I hope this invitation will be sufficient for visa purposes. In the event of any problems, please feel free to tell officials they can contact me directly for further information.

I look forward to meeting you, as your recent paper on singularities of differential equations is on a topic close to my current research interests.

Yours sincerely,
